EXHIBITIONS THE LOOKOUT

Lee Bul

at Lehmann Maupin,
through Jun. 21
201 Chrystie St.

While there are several biomorphic, sequin-skinned sculptures and intricate, architectural drawings in Lee Bul's exhibition, the star of the show is undoubtedly *Via Negativa II* (2014), a mazelike illuminated mirrored room installed in a gallery with a mirrored floor. It's like one of Yayoi Kusama's Infinity Rooms, but more disorienting, and there's no line to get in.
